

Which is the odd one out?

Why?

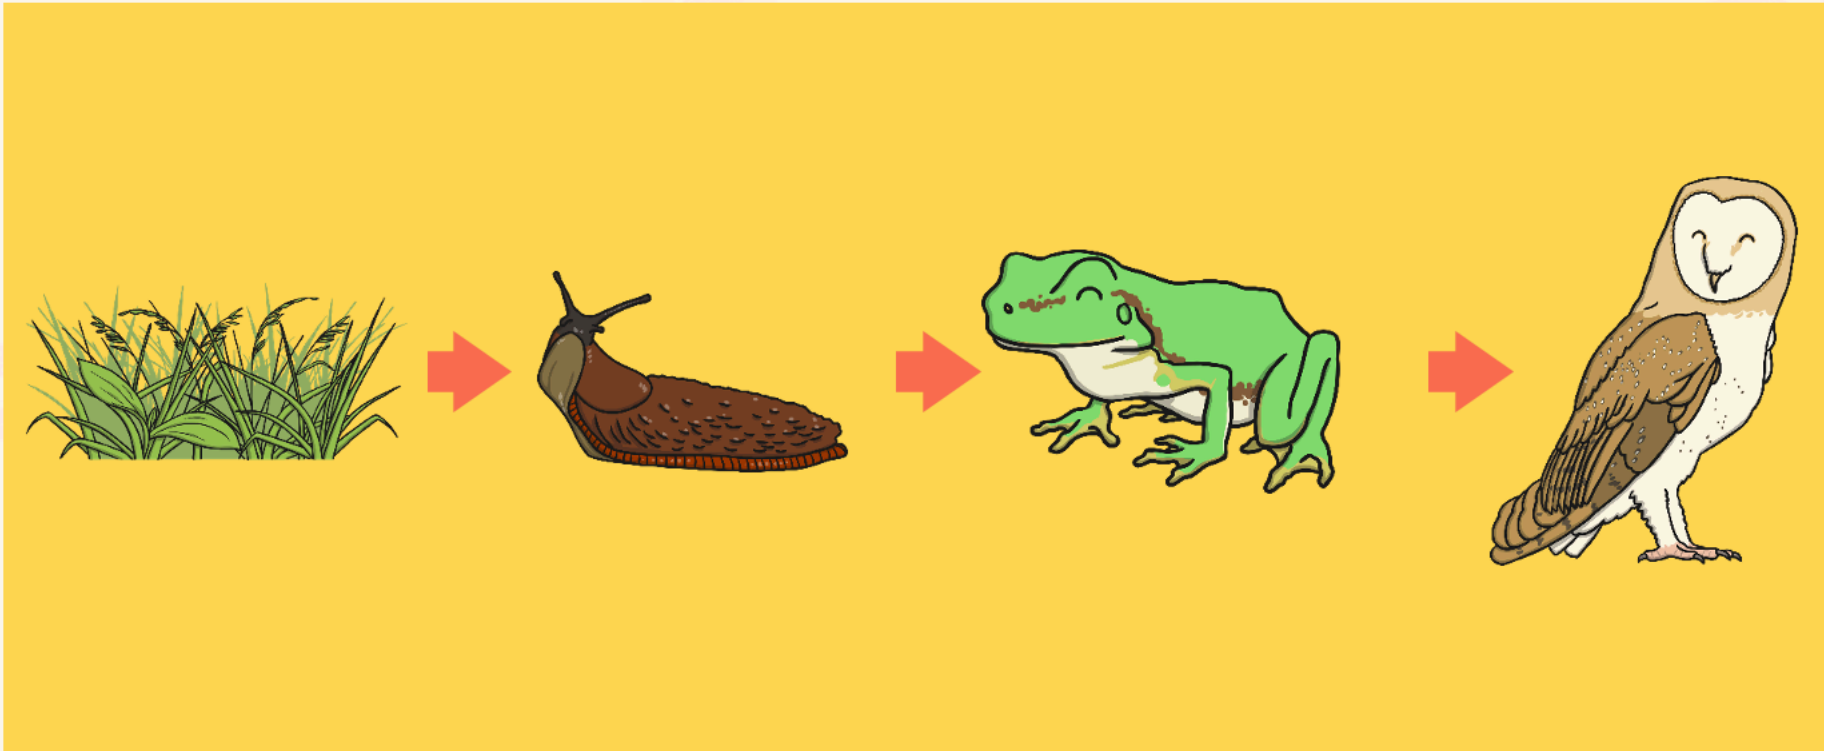

What is a food chain?

Let's have a look at this website to find out more...

<https://www.bbc.co.uk/bitesize/topics/zbnnb9q/articles/zwbtxsg>

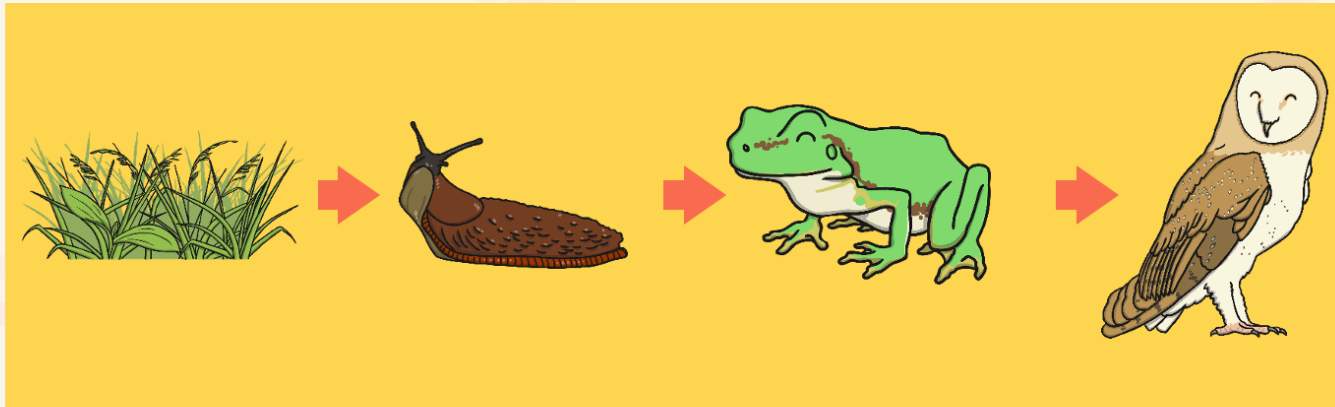

How is this food chain constructed?

What do the arrows represent?

How should we label the different parts of the food chain?

Labelling Food Chains 1

Producer/Autotroph

Consumer

Consumer

Consumer

Primary
Consumer

Secondary
Consumer

Tertiary
Consumer

Prey

Predator/Prey

Predator

Detritivore

Omnivore

Carnivore

What do all these terms mean?

Can you give 3 examples of a Primary Consumer, Secondary Consumer and a Tertiary Consumer?

What are we?

Your task is to now either make an interactive food chain book or a pyramid, the templates are in the assignment set today.

Pyramid Instructions

Cut out the shape.
Fold carefully along the dotted lines.
Flatten out then on the bottom layer label 'Producer' in one third, write the name in another then draw it in the final third.

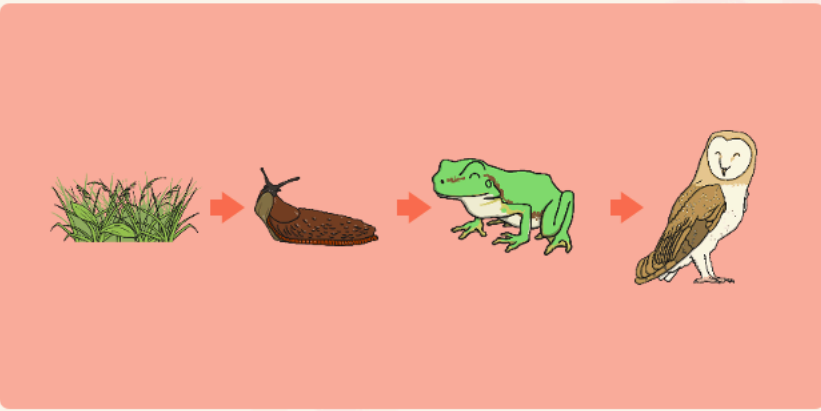

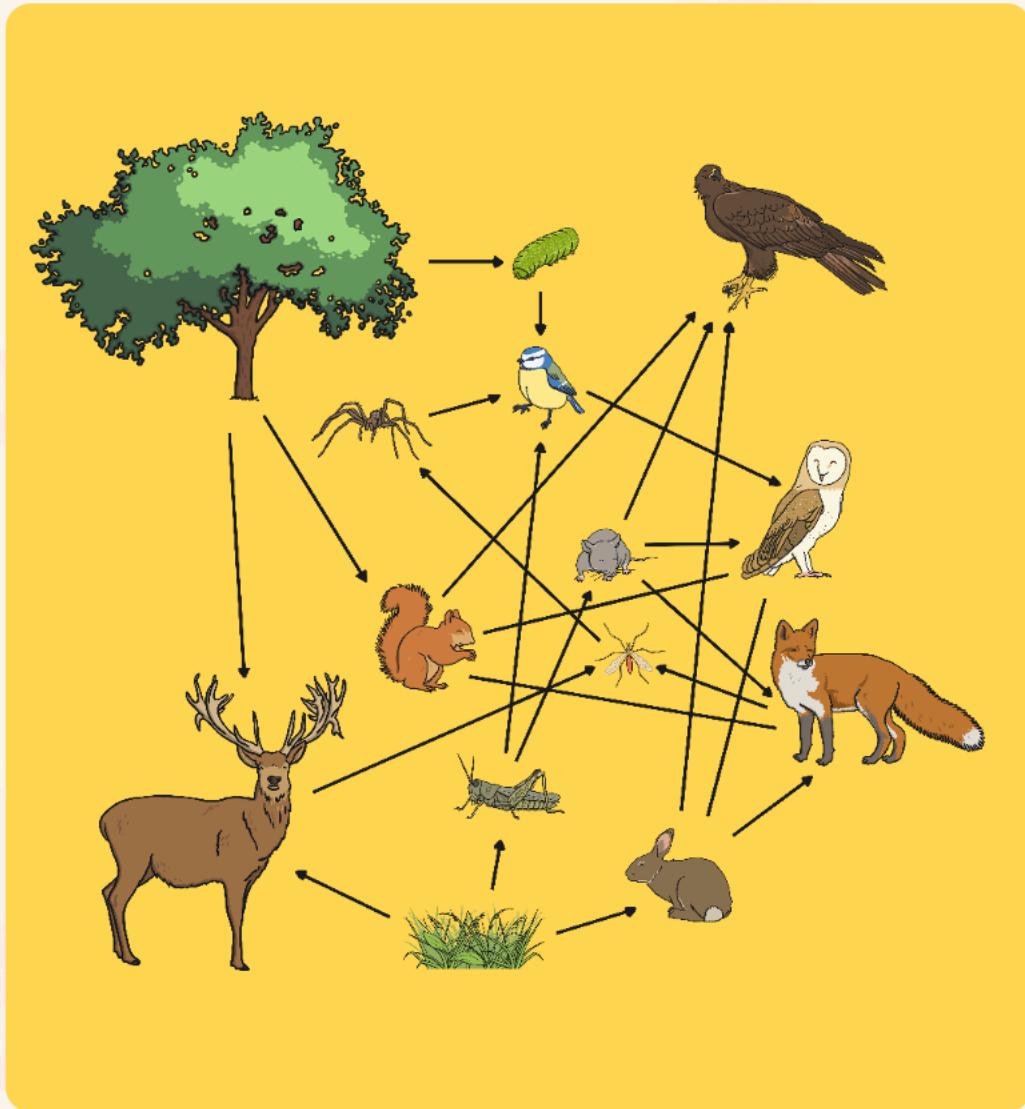

On the second layer write 'Primary Consumer' write the name of an animal the next step up on the food chain.

Finally, repeat the steps for layer 1 and 2 for layer 3, but label it 'Predator'.

Booklet Instructions

All the instructions are on the sheets.
Read them carefully!

Never cut along the dotted lines and you'll be fine.

How are food webs similar/different to food chains?

When would it be better to use a food chain?

When would a food web be better?
